

Kleopatra Emmanouil

As a UX Designer, I specialize in creating user-centric designs with a focus on UX/UI, accessibility, and innovative solutions. I excel in teamwork and leverage design thinking to enhance user interactions.

Work Experience

UX Design lead, SEB, Technology

June 2022 - Present

- Lead UX Design for SEB's internal channel, supporting employees assisting corporate and private customers.
- Develop and implement design solutions for the channel's interface to ensure a seamless, intuitive user experience.
- Collaborate closely with the team to foster a cooperative and innovative environment for optimal user experience.
- Provide design support and guidance to other designers and teams, including conducting design reviews.
- Conduct UX research to gather insights and inform design decisions.
- Plan and execute user tests to validate and refine designs.

UX Designer, SEB, LC&FI

November 2021 - April 2022

- Gained comprehensive experience in UX design practices with a focus on user-centricity during internship.
- Developed skills in effectively communicating the design process with stakeholders.
- Maintained a strong focus on creating user-focused solutions.

Assistant nurse, Karolinska University Hospital

2018 - 2022

- Worked in the hospital's sterile medical technology department, collaborating closely with other nursing assistants and surgical nurses.
- Managed surgical instruments from their arrival post-operation to their sterilization.
